no wonder they do not accept paypal.

This company is useless. I have paid \$613 USD and cancel my account after one month and without refund .will I will take this action further if your company not refund me.

After many years on Shopify, They recently sent out a letter asking for proof that we could sell certain items (IE, Accredited reseller). Or they would shut our site down or remove some items. We Supplied this within a week. Fast forward 3 months, and lo and behold site shut down. Multiple complaints to Shopify finally had them admitting to their mistake.. Only compensation offered for shutting our site for 5 months now and huge loss of income, 3 months free Shopify worth about \$87 USD. They literally reply to you with smart-butt comments when you mention the words negligent and lawyers.

Take my hint, avoid this company at all costs, they do not give care about you or your store. Also, note they are super hard to contact on any issues, can be days and weeks between replies.
